

SHREE HALARI VISA OSWAL DEGREE

COLLEGE OF COMMERCE

REPORT ON

'NEXUS INTERNATIONAL WORKSHOP'

The 'Nexus International Workshop' was held at Govardhan Eco-Village from 26/08/2017 to 28/08/2017 (Saturday to Monday). The volunteers of Shree Halari Visa Oswal Degree College of Commerce, Bhiwandi worked in collaboration with the Govardhan Eco-Village in organizing the workshop.

Date and Timings:

26th August 2017

(Day 1-3:00 pm to 10:00 pm)

27th August 2017

(Day 2-5:00 am to 12:00 am)

28th August 2017

(Day 3-6:30 am to 11:30 pm)

Day One - 26th August 2017

Twenty-five students (Twenty three NSS members and two T.Y.B.Com students) and four faculties including three teaching and one non-teaching staff of our, Shree Halari Visa Oswal Degree College, had commenced our trip to Govardhan Eco-Village at 3:00 pm on 26th august, 2017. We reached our destination at 6:30 in the evening. We were allotted rooms in the Gokul cottages of the Govardhan Eco-Village. A meeting was held at the auditorium of Govardhan Eco-Village at 8:30 pm. We were given instructions and guidelines regarding the organization and management of the activities of the workshop. We were allotted management duties of Hall Management, Registration, Escorting, Canteen service, Photography, Customer service (HELP DESK MANAGEMENT), etc. The meeting lasted approximately three hours. We left for our rooms (Bedtime) at around 11:55 pm after the final instructions which were given to us by Swami Neemaleela Das sir and Rakesh Sir.

Day Two-27th August 2017

Timings	Particulars
4:30 am	Wake up time
5:00 am to 6:45 am	Sight-seeing
6:45 am to 7:00 am	Walk to the main temple
7:00 am to 8:00 am	Attending of 'Krishna-Poojan'
8:00 am to 8:15 am	Return to Prasadhamshala for breakfast

6:15 am to 9:15 am	Breakfast
9:15 am to 2:45 pm	Working hours for organizing and managing Nexus international Workshop (engagement of the selected teams in their respective works)
2:45 pm to 3:30 pm	Lunch at Prasadhamshala
3:30 pm to 5:30 pm	Tour of the Govardhan Eco Village
5:30 pm to 6:30 pm	Yamuna Aarti
6:30 pm to 7:45 pm	Introduction lecture on ' <i>Ecological cycles and processes</i> ' given by Swami Neemaleela Das Seminar by Dr A.D.Savant regarding Environmental Awareness
7:45 pm to 8:30 pm	Dinner at Prasadhamshala
8:30 pm to 11:35 pm	Final working arrangements and meetings for next day's conference
12:00 am	Bedtime

Day Three-28th August 2017

Timings	Particulars
6:15 am	Wake up time
6:15 am to 8:00 am	Preparations for the Beginning of Nexus Workshop (Including Breakfast)
8:00 am to 9:00 am	Arrival of guests at auditorium
9:00 am to 11:30 pm	Inaugral session on 'Climate Change' Speakers for the session: 1.)Dr.Rajendra Singh 2.)Dr.A.D.Savant 3.)Dr.Snehal Donde -Principal, S.H.V.O. Degree College.
11:30 to 12:00 pm	Tea and snacks break
12:15 pm to 3:15 pm	First Planery session Speakers for the session: 1.)Speaker from NEERI 2.)Speaker from GEV 3.)Mrs Leena Mehendale 4.)Professor Pramod Kumar Panday
3:15 pm to 4:30 pm	Lunch at Prasadhamshala
4:30 pm to 6:30 pm	Final Planery session Speakers for the session: 1.)Dr.A.D.Savant 2.)Dr.Rajendra Singh 3.)Dr.Pradeep Panigrahi (Mahindra Group)-Spoke on ' <i>Corporate Sustainability</i> ' 4.)Swami Neemaleela Das (Vote of Thanks) 5.)Dr. Snehal Donde-Principal, S.H.V.O. Degree College (Declaration) 6.)International Guests of Honour (Spain):- i.)Sir Hectar Cueva ii.)Madam Toya Victoria (Special Delegates from General Council) 7.)Mr.Kishore Dhariya
6:30 pm to 7:00 pm	Concluding words by every delegate, speaker and guests of honour.
7:00 pm to 8:00 pm	Dinner at Prasadhamshala
8:00 pm to 9:30 pm	Clearing and Cleaning work
9:30 pm	Departure from Govardhan Eco Village
By 11:45 pm	Every One reached their respective homes

SUMMARY:

- 1.) The event was successfully held.
- 2.) There was increase in co-ordination and co-operation among the students, representatives and teachers.
- 3.) Many eminent people and speakers along with the students and volunteers attained the workshop.
- 4.) The audience for the session gained a lot of knowledge regarding climate change, water preservation and consumption, ecological cycles, methods and measures to prevent water scarcity and intervention of water flow, sustainable development of environment, participation in community literacy programs and other similar social events.
- 5.) The students got hands on experience on the processes of management and organization.
- 6.) There was improvement in students' communication skills.

One day Multi-disciplinary National Conference
on
**“Emerging trends in Library Science, Commerce and Management &
Environment sustainability”**

On

Saturday dated 3rd March, 2018

REPORT

Date: 3rd March 2018

Time : 11.30 am to 5.00 pm

Venue: Auditorium

Introduction:

The aim of the conference is to provide a platform for practitioners, academics, policy makers, researchers and students to share original research, reviews and industrial papers from the field of Library Science, Commerce, Management, Environment and Social Sciences. Experts from various fields are invited to give insight for contemporary trends. Evolving curriculum for systematic empowerment is pertinent and this kind of conference is cutting edge for global essence. This National Level Multidisciplinary Conference intends to broaden opportunities for participants by means of sharing findings of their studies, highlight recent developments and identify emerging and future trends in existing fields.

Objectives: The basic objectives are:

- 1) To discuss the latest trend in the Library science
- 2) To exaggerate the new aspect in the field of Commerce and Management.
- 3) To link various stakeholders of the society for business practices in trade and Industry.
- 4) To analyze the various opportunities available for professional growth & Development

Preparations:

Invitations were sent to Chief Guests and Guest of Honours and advisory committee.

Menu for Breakfast, working Lunch and Special Lunch was determined and ordered to Shreyank Caterers.

Programmed schedule, Felicitation List was prepared.

Work was allocated by forming groups of Extension students.

Participant by Researchers, Student, Librarian, in Maharashtra and other state.

Sound system and seating arrangement were checked.

• **Detailed Report:**

with the decorations and arrangement in Auditorium. Extension students with the help of Student Council, N.S.S. Student, DLLE Students have made necessary arrangement in Auditorium, on Stage and for Saraswati Pujan.

Registration Desk was set up near Auditorium. College registrations were started at 8.30 am onwards. Students assisted to Members from Other College Students, Librarians, Lecturers, Ass. Professor for Registration Process.

After Registration, Participants were directed towards Canteen for refreshments.

Total 51 paper received and selected by 44 paper published

Inauguration Session:

Inauguration of National Conference at 11.00 am with welcoming the guests and Saraswati Vandana. Dr. A.D.Sawant, Gauranga Das, Dr.B.Panduranga Narasimharao, Shri. Narayan S.Barse and Sandeep Bhavsar honoured, the occasion of Saraswati Pujan. It was followed by University song sung by Extension students.

Chief Guest: Dr. A.D.Sawant , Former University of Mumbai

Guest of Honours & Keynote Speaker :

Dr. A. D. Sawant

Subject Expert:

Commerce & Managment

Dr.B.Panduranga Narasimharao

Environmental Science

Gauranga Das

Library & Information Science

Shri. Narayan S.Barse

Conference Chairpersons

Dr.(Mrs) Snehal S.Donde

Conference Coordinator

Mr. Yogesh Pawar

Mr.Sanjay Salwe

Governing Council Members:

Shri Ketan Malde
Shri Piyush Jakhariya
Smt. Bharti Chandriya
Smt. Bhavika Gosrani

Prin. Dr. Snehal S. Donde presented Concept note and shared her experience

All the dignitaries were welcomed and felicitated with Shawl, Shrifal and Sapling as token of love. The department also felicitated Dr.A.D.Sawant, Dr.B.PanduRanga Narasimharao and Gauranga Das Prabhu Principal by offering memento of special contribution.

Keynote speech - Dr.A.D.Sawant speech on environmental Sustainability, Commerce & Management and Uses of Library & Services Conference

Technical Session I

- 1) Gauranga Das Sustainable developments are the four needs of human i.e. Ecological - self sustainability, Economical - self sufficiency, Social - self worth, Cultural - self realization. Govardhan eco village is a step towards sustainable development of society and also how life is flourish in the govardhan eco – village.
- 2) Dr.B.PanduRanga Narasimharao, Regional Director, Indira Gandhi National Open University, Mulund, Mumbai.,Speech on There are many gaps in the present day University system. Governance related gaps include need analysis, time to market, and accountability. Curriculum related gaps are relevance, flexibility, behavioural skills, value system and innovations. Assessment related gaps are learning effectiveness, operational concerns and adaptability. Intrinsic gaps are quality and standards, priori and posteriori disconnects, and external interferences. One can identify many gaps and limitations.

3) Shree Narayan Barse , Librarian speech on ICT Based information Sources

Technical Session –II (Paper Presentation Session)

Technical Session Chairperson:

1. Dr. Sandeep Bhavsar
2. Dr. D.K. Kakipur
3. Dr. Nilendra Lonkhande

- Inaugration Session ended with vote of Thanks by Extension Teacher, Mr. Yogesh Pawar

Points to be taken care: The following points to be noted to overcome from the drawback of Organizing events:

The group of Students to be formed to look towards the receiving and escorting the guests.

The Proper work allocation among staff and students should be made and documented to maintain proper flow of programme.

Report
Guest Lecture On Entrepreneurship Outlook

Activity: -Guest Lecture

Date: 18/07/2017

Objective of Activity: To Create awareness about Importance of Entrepreneurship

- VENUE: - T.Y B.Com class, First Floor
- TIME:- 11:00 am to 01:20 pm
- BY:- Miss Sonika Rachuri.

Objective:

- To develop an idea in the minds of youth to be an **Entrepreneur**.
- To create the confidence among them for starting a start-up
- To show them the importance of business in today's Multinational Corporate world

all the students have attended the lecture of Miss Sonika Rachuri on the topic '**Entrepreneurship Outlook**'. She gave us an advice regarding an Enterprenurship Development. Especially to those who are more interested in doing business. She also has taught that first we have to make proper planning after that we have to decide that we have to decide that we exactly want to do. The lecture delivering style was extraordinary. We all the students have learned very much. We all students are very much thankful to Miss Sarika Rachuri Mam for coming & delivering lecture. Finally we are Thankful to our respected Principal mam Dr. Snehal Donde , for calling Mam in our college. That day was Grateful for us.

Thank You,
Sonal Pande, T.Y.B.Com.

Report of One day Workshop on Revised Syllabus of T.Y.B.Com 2018-19

Date: 2nd July, 2018

Time : 11 am to 2.30 pm

Venue: Auditorium, Ground floor, College Build

Reference: University letter no. AA/ICD/2018-19/227 issued on 27th June, 2018

Introduction:

As the Revised syllabus is introduced by University of Mumbai for T.Y.B.Com 2018-19. There was need to orient faculties in their respective subject syllabus content and revised paper pattern. In this regard, the College had organized one day workshop on revised syllabus of T.Y.B.Com (Semester V and VI).

Objectives: The basic objectives are:

- To create awareness through Street Play and Poster Competition,
- To provide information to respective faculties regarding syllabus upgradation
- To give opportunities to college extension students to enhance their skills in organizing and managing the event.

Preparations:

- Request letters was sent to University for seeking permission to conduct workshop. After University approval received regarding date fixing over call.
- Subject wise Resource persons' availability was confirmed via calls and invitations were sent through e mails.
- Brochures and invitations were prepared and send to colleges
- Menu for Breakfast, working Lunch and Special Lunch was determined and ordered to Shreyank Caterers.
- Programmed schedule, Felicitation List was prepared.
- Work was allocated by forming groups of teachers and students.
- Calls were given to Colleges for confirming the participants so as to make hospitality arrangements.
- Sound system and seating arrangement were checked.
- Stationery items like folders, pens, conference pad, etc purchased ,Registration form, feedback forms and coupons were prepared.
- Podium, tables, chairs and teapoys were arranged.
- Banner was prepared for workshop and registration counter.

Detailed Report:

Inauguration Session:

Guest of Honours : Dr. Raju Krishnam, Principal, Saket College, Kalyan
Dr. Ashok Wagh, Principal, B.N.N. College, Bhiwandi
Dr. Vishnu Fulzele, Principal, S.B. College, Shahapur

Resource Persons :

For Marketing-Prof. Dr. Amitha Sehgal, RA Podar College,
For Human Resource Management-Prof. Dr. Dipali Moghe, V.K.Krishna
Memor College, Bhandup
For Marketing Research-Prof. Dr. Harmeet Kaur, St. Andrews College,
For Export Marketing-Prof. Dr. Shripad Joshi, Ghanshyamdas Saraf
College,
For Economics-Prof. S.A. Pawar, M.C.C. College, Mulund
For Direct Indirect Taxation-Prof. Dr. CA Kishor Peshori, CHM College,
Uthamnagar
For Financial and cost Accounting- Prof. Kuldeep Rathod, B.N.N. College,
Bhiwandi

Governing Council Members: Shri Dipak kumar Shah, Chairman
Smt. Bharti Chandriya
Smt. Bhavika Gostrani

Inauguration:

Inauguration of one day workshop was started at 11.00 am with welcoming the guests and Saraswati Vandana. Prin. Dr. Raju Krishnam honoured the occasion of Saraswati Pujan. It was followed by University song sung by students. Following eminent personality graced the occasion.

- Prin. Dr. Snehal S. Donde presented Welcome note and explained the importance of conducting workshop on revised syllabus.
- All the guests were welcomed and felicitated with Shawl, Shrifal and Sapling as token of love.
- Prin. Dr. Raju , being a member of syllabus framing committee, in his speech, explained the process of syllabus revision and the types of changes made in revised syllabus.
- Prin. Dr. Ashok Wagh, Board of Studies member of Accountancy, showing gratitude for inviting , praised the infrastructure development in the college and conveyed best wishes for further programmes.
- Inaugration Session ended with vote of Thanks by workshop co-ordinator, Mrs. Pooja P. Dodhia.

Welcoming of guests and Saraswati Pooja

Felicitation of Guests

Word of blessings by Principal, GC Chairman and Guests of honour

Technical Session:

- Technical session of Commerce began with the Introduction of revised syllabus of Marketing by Dr. Amitha Sehgal. She presented and explained of contents of subjects and paper pattern over power point Presentation.
- Subject of Human Resource Management was explained by Dr. Dipali Moghe. She explained the new concepts introduced in revised syllabus and their relevance in contemporary times.
- Export Marketing syllabus was explained by Dr. Shripad Joshi. He covered Semester V & VI syllabus together.
- Sessions on Business Economics and Accountancy were conducted separately in Auditorium and Classroom at the same time.

- Prof. S.A. Pawar introduced revised syllabus of Business Economics (Semester V & VI) and explained revised paper pattern.
- Prof. Kuldeep Rathod covered Financial Accounting and Cost Accounting revised syllabus and Dr. CA Kishor Peshori conducted session on Direct and Indirect Taxation

Valedictory session:

- Technical session ended with vote of Thanks by Mrs. Ranjeeta Singh.
- The certificates were distributed to participants.
- All participants parted by taking lunch.

Improvements to be made :

1. Workshop promotion to be made aggressively.
2. Personal calls should be made for confirming participation.

Report
Faculty Development Programme
On
Quality Assurance in Higher Education Institutions

Objective:

- To educate and train faculties of colleges about NAAC new guidelines
- To upgrade about various Criteria and new metrics formed by NAAC.
- To share best practices that can be used for institutional development
- To Interact with various experts and resolve the problems facing during NAAC Accreditation process

Time : 9:30 a.m. to 5:00 p.m.

Execution:

A Faculty Development programme (FDP) on **Quality Assurance in Higher Education** by Shree Halari Visa Oswal college of commerce from 23rd August to 25th August, 2018 in association with Maharashtra State Cluster Group. With an objective to educate and train faculties of colleges about NAAC new guidelines & upgrade about various Criteria and new metrics formed by NAAC which they have to field while submitting SSR also to share best practices that can be used for institutional development & provide a platform for interacting with various experts and discuss the problems and their solution for overall functioning and accreditation process of the institution. The programme was begun with inauguration of workshop by Shri Deepak Kerlekar honorable Additional Municipal Commissioner Bhiwandi. Shri Deepak Kerlekar in his speech appreciated the Two Ph.D done by her in two different fields among which specially related to Education and how she is utilizing things in overall functioning and development Oswal College and Bhiwandi. He also appreciated her work on Kamvari River as a community service and connecting young youth with society as well as contribution towards water literacy and conservation as Jalnayak of Maharashtra. Looking to her efforts and various programmes and activities conducted by her in overall personality development of students & Faculties he assured that he will be happy to joining any occasion and will provide support as he also belongs to education field. |

Day -1

The 1st technical session has begun by Dr. Bhalchandra Bhole, Former Head, Microbiology Department & IQAC Coordinator, Abasaheb Garware College, Pune, he explain how IQAC can be the nerve centre of a institution, and is attributed with the presence of members who constitute the 'think tank' of the institution. The IQAC is responsible for all 'Quality Assurance' giving attention to every stage of educational processes and support systems in colleges, to achieve and maintain a desired level of quality in service and 'product' – the student.

He said It needs to be clarified that though the term 'Quality Assurance' (QA) is included in IQAC, we must not neglect Quality Control (QC). This is necessary as, by definition, QA is process oriented and QC is product oriented. QC activities focus on identifying defects in actual products, deploying remedial measures, validation and testing, which is a key role of the IQAC.

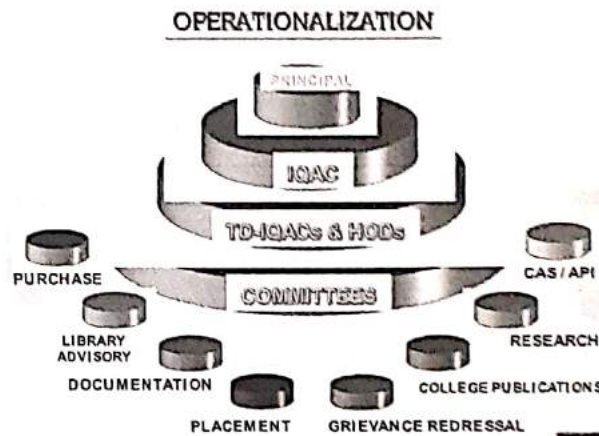

The onus of understanding and deploying mechanisms and procedures for accreditation lies on the IQAC. Hence, the operations and working of the IQAC has become vitally important and critical thinking and expression is essential. He also discuss about latest Maharashtra Universities Act (MUA), 2016 [Mah. Act. No. VI of 2017, Section 97 (g)] has stated the inclusion of the Coordinator of the IQAC in the College Development Committee, a statutory body of the College. It is therefore implied that the IQAC is also a statutory body of the college.

With this preamble, it is established that the IQAC has a managerial position in the institution's hierarchy and should be constituted of members who can contribute to the institutions well-being and academic progression. The role of the IQAC therefore becomes multifaceted (administrative, directorial, executive and supervisory), and should be recognized so by the college management in its deliberations.

- ❖ The IQAC will now not be just another committee in the college, responsible for affairs and work related to NAAC accreditation, working in conjunction with the 'Documentation Committee' and other teaching departments to implement their Workshops, Seminars, etc.
- ❖ The IQAC will be a proactive, managerial team planning and deploying all quality enhancement mechanisms and processes for the overall enhancement of institutional quality based on the benchmarks set for all academic and support service activities in the institution.

The operations of the IQAC encompass all activities on campus, thereby interacting with all task and statutory committees and work areas, as shown below.

He elaborated how the IQAC composition can be formed and members to be selected where he said that the IQAC composition should be a good mix of experience and youth & should be encouraged to keep the teamwork perpetual. The **IQAC Coordinator** is the most vital member of this team, both as a leader, colleague and motivator and to achieve the core functions, he said the following are necessary:

1. Policies and Procedures for assurance of quality, and standards for the conducted programs.
2. Formal strategies should be developed and implemented for continuous QE with involvement of students and other stakeholders.
3. The College should have formal mechanisms for the approval, periodic review and monitoring of their programs.
4. Formal and published criteria, rules and procedures for assessment of students.
5. Continuous periodical quality assurance of teaching, administrative and other support staff. This may be done through internal / external reviews.
6. Ensuring that learning resources and student support facilities are adequate for each program offered.

7. Information systems (MIS) should be strong to ensure that relevant data and information is collected, analyzed and used for effective management of academic programs and other activities.
8. Information should be published in the public domain (e.g. website). Publication should be up to date, impartial and factual regarding all campus activities and academic programs.

The Quality Assurance System may be divided into 5 major areas:

- Academic Programs
 - Intended Learning Outcomes
 - Curriculum
 - Student assessment
 - Student achievement
- Quality of Learning Opportunities
 - Teaching and learning
 - Student support
 - Learning resources
- Research and other scholarly activities
- Community Involvement
- Effectiveness of Quality Management and Enhancement

To monitor and assess the course of events in all of the above, **specific tools / instruments** suggested below need to be designed and implemented:

1. Academic Audit
2. Administrative Audit
3. Feedback
4. Appraisal
5. Examination Results
6. Student Satisfaction Survey
7. Self evaluation

Using these tools effectively is one of the responsibilities of the IQAC. The IQAC needs to educate all stakeholders on the purpose and operation of these tools. Correct use of a tool will lead to a fine product. If examined critically, accreditation agencies essentially gather information and use these tools to assess the results. These tools need specific attention.

He highlighted the A-Z approach requires **strategic planning**, which typically involves a review and examination of the institution's mission, vision, values, goals and objectives. The IQAC needs to brainstorm and strategically plan QE activities with an overall goal of the creating / molding a 'market-ready product', the student.

Certain steps in planning that he covered are: **Steps in Planning:**

1. Understanding the 'market requirements' for your students.
2. Creating robust curricular, co- and extra-curricular processes to groom students' skill sets (Technical, Functional and Employability Skills).
3. Assessing the infrastructural and support manpower (academic and administrative) available / needed for the above processes.
4. Assessing the monetary requirements to accomplish the tasks required.

5. Decisive prioritization of processes through, at least, 10 years of progression.
6. Benchmarking for all the process.
7. Brainstorming the issues with all stakeholders (Higher Management, Teachers, Alumni, Student-Council, Potential Employers and Parents).
8. Preparing appropriate academic calendars to deploy the plans.

At the end of the planning stage, the IQAC should have come up with processes integrative with the curriculum (academic syllabus) of study. Though the institute may have a range of academic courses and technical skills may vary, the functional and employability skills to be imparted remain fairly the same, hence, the need for integrative planning.

He also categorize planning that can be done on the basis of:

- **Sources:** Department (including Sports and Library), College Office, UGC, State Govt., NAAC, IQAC, Seminars / Workshops / Conferences
- **Directed segregation:** NAAC Criteria; Departments / Activities (including Office); Feedback / Students Survey
- **Stand-alone and shared files:** Stand-alone (raw data / information); Shared (data useful to several stakeholders)

Some of the other areas which he were highlighted are:

- Website
- Minutes of Meeting
- Action taken Reports
- Feedback Analysis
- Annual Planning

Facts covered by him are :

- Archaic systems and regulations
- Outdated syllabus
- Lack of skill based (practical) education
- Teacher training required
- Pedagogy neither student-centred nor dynamic
- Personality development not prioritized
- Poor language skills
- Lack of hi-tech libraries
- Economic difficulties

- In the second session Dr. Anil Dusane from Parashurambhau College, Pune, highlighted about criterion –I & II where he covered about Curricular Aspects and Teaching-Learning and Evaluation, he elaborated the curricular aspect strategies to achieve good score where he said for achieving this it need to set a goal and before that go through NAAC manual understand it thoroughly and even read SSR of few colleges for reference and make your strategies according to your conveyance draft rough SSR and go for mock.

Some major requirement he highlighted for achieving this are:

- Team work
- Enthusiasm- High energy levels
- Hard work and smart work
- Documents collection and its proper recording
- Warrior mindset and not a worrier mindset
- Positive attitude towards NAAC accreditation
- Motivation and activation of all the stakeholders

Apart from this he explain the various metrics of Criterion – I & II where he mention about departmental documentation in which he covered following points

1. Teacher profile (CVs of all teachers) file
2. Academic calendar
3. Workload file
4. Time tables and monthly teaching schedule file
5. Teachers' diary
6. Teaching plan and Implementation plan file
7. Work distribution (curricular, co-curricular and extra-curricular file
8. Course outcomes and Programme outcomes file
9. Result analysis file
10. Students projects file
11. Value added/career oriented courses file
12. Students major achievements file
13. Meetings and minutes file
14. Feedback on syllabus

For developing new curriculum aspect he suggested above strategy can be formed

Day -2

The first session was conducted by Shrihari Ashok Pingle, Coordinator, IQAC Sangamner Nagarpalika Arts, D. J. Malpani Commerce and B. N. Sarda Science College, Sangamner. Where he covered Criterion III in which he explain various indicators and metrics covered in this criterion and also guided areas where need to give focus for developing research in institution where he suggested :

- Policies, practices and outcomes of the institution, write research, innovations and extension.
- Facilities provided and efforts made by the institution to promote a 'research culture'.
- Responsibility to enable faculty to undertake research projects useful to the society.
- Serving the community through extension, which is a social responsibility and a core value

He explain the following Steps for Starting Incubation Centre

1. Assess the market conditions and entrepreneurs requirements
2. Identify team and service providers
3. Arrange for resources
4. Establish industry linkages
5. Draw out a calendar of activities
6. Attract, select, retain and manage startups

Apart from this he explain how to write an answer of each question of criterion –III and how the data can be collected and computed. He suggested few funding agencies who supports to research activity and funds also can be collected from alumni.

He also suggested how to write a research proposal where he covered few aspects like –Innovation, Time, Cost, linkage with industry etc.

The second session was conducted by Dr Snehal Donde, Principal, Shree Halari Visa Oswal College, She explained "*Quality, autonomy, research and innovation are key pillars of our vision for improving higher education in India*".

She covered the criterion-IV in which she explained the new accreditation process and new guidelines issued by NAAC. She explained the Key features of revised accreditation process as under:

- ❖ A Paradigm shift in approach and philosophy.
- ❖ From qualitative peer judgments to data based quantitative indicator evaluation.
- ❖ Automated Evaluation Model with Increased objectivity & transparency.
- ❖ Data validation & verification (DVV) by external professional agencies.
- ❖ Significant difference in evaluation of Universities, Autonomous Colleges and Affiliated/Constituent Colleges.
- ❖ Introducing key indicators on Alumni engagement and Student satisfaction survey (SSS).
- ❖ Focus on Innovation Ecosystem, Institutional Values & distinctiveness.
- ❖ Introducing pre-qualifier for peer team visit, as 30% of system generated score (SGS).

She also covered how data validation & Verification take place and how it works as by highlighting the following points

- In introducing the element of third party validation {Data Validation and Verification (DVV) } of data and the possibility of roping in multiple agencies
- Helps NAAC ensure correctness of the data captured during the SSR process.
- Identified external agencies to partner - validate the claims made by an institution.
- Data sheets for various metrics - NAAC
- AISHE, Mandatory disclosure – website, UGC, MHRD, Universities, State Higher Education Departments, other Regulatory agencies.
- Annual reports, Audited Statements of Accounts, Research – Scopus, Web of Science, INFLIBNET.
- No on-site visit for validation.
- More amenable to the use of technology - data mining and analytics

The another area highlighted by Dr. Donde is Governance, Leadership and Management. As experienced in administration and principal ship for 40 years she shares effective experience and knowledge for governing leadership where she covered the above mention aspect.

- Effective leadership in tune with the vision and mission
- Practices decentralization and participative management
- Perspective/Strategic plan and deployment documents
- Organizational structure of the university including governing body,
- Administrative setup, e-governance in areas of operation
- Effectiveness of various bodies/cells/committees is for teaching and non-teaching Staff
- Financial support to attend conferences / workshops
- Professional development / administrative training Programs
- Teachers attending professional development
- Programs, viz., Orientation Program, Refresher Course, Short Term Course, Faculty Development Programs

Internal and external financial audits regularly The governance of the institution is reflective of an effective leadership in tune with the vision and mission of the institution

- Vision statement
- Mission
- Alignment with VM
- Major achievements

By taking few examples of Vision and Mission she explained how Mission & Vision should be aligned with objective and continuously it should be focusing on institutional objective.

For developing Promotional and participative management culture & solving the problems and for taking up decision, she highlighted various levels that can be make functional at institution level are

CDC (LMC) level:

- Apex decision making body at college level. Takes important decisions about academics, administration, up-gradation of the learning resources, infrastructure, budget and sanctioning of sabbatical/study leave, etc.

IQAC level:

- The faculty members who represent IQAC play an active role in organizing and monitoring academic and other activities in which students actively participate.

HODs level:

- Plan and implement the academic activities.

- Perform a wide range of work- distribution of workload, time table, monitoring of teaching, conduction of examination, result analysis, invite guest speakers, decide theme of workshops/ seminars /conference, recommend leave, utilize departmental budget as per the requirements.

Coordinators of Committees level:

- Faculty as coordinators of the committees plan and execute activities.

Non-teaching staff level:

- Non-teaching staff also provide help in solutions to the various administrative issues.
- They provide simple but innovative ideas for the departmental and laboratory problems.

Student's level:

- Students actively participate and play an important role in Students' council, departmental festivals, various committees, NSS, NCC, etc.

Day -3

The session was conducted by Dr. Nanaware, IQAC Co-ordinator, DAV Velankar College, Solapur. He highlighted the Core Values of NAAC which are foundation of assessment. He focused on quality culture of the institution in terms of Quality Initiatives, Quality Sustenance and Quality Enhancement, as reflected in its vision, organization, operations and the processes. For student support and progression he said it is necessary to provide assistance to students which make them enable to acquire meaningful experiences for learning at the campus & facilitate their holistic development and progression and will increase alumni profiles and ultimately progression of students to higher education generate employment.

Report on Cyber Crime and Prevention (2019-2020)

Date: 18th July, 2019
Venue: College Auditorium

AIM :

- To increase its preventive capabilities in the fight against cybercrime, while, at the same time, helping the Member States' law enforcement in being one step ahead of the cybercriminals.
- To specialise in early warnings, cybercrime threat assessments, and awareness-raising methods.
- To promote existing, and contribute to developing, delivering and aligning, new awareness-raising initiatives in the thematic focal areas, involving as well, when possible, partners from NGOs, the private sector and academia.

Execution:

18th July, 2019

The Cyber Crime and Prevention Workshop was Organized in our college today. Dr. Snehal Donde Welcomed Mr. Harol D' costa. Mr. Harol D' costa is President – Cyber Security Corporation and CEO – Intelligent Quotient Security System. He is also an Advisor – Law Enforcement Agencies.

Dr. Snehal Donde and respected guest lighten the lamps and Felicitation to Other Management members. Dr. Snehal Donde addressed Students and Teachers about Cyber Crime and Prevention. Dr. Harold D' Costa was conducted the session of Cyber Crime and Prevention to all students to awareness of all youth for sharing his knowledge, experience and Ideas

Dr. Harold D' Costa guiding students about awareness of Cyber Security.

The topics covered by him :

- High Crimes in Banking Sector
- Crimes in Online Sector
- Security Hackers

Mr. Kiran Kabadi is Police Inspector of Bhiwandi, make students aware to learn about cyber crime topics he covered as :

- profile of cyber criminal
- Disgruntled Employees, etc.

Mr. Kiran Kabadi police inspector of Bhiwandi aware about Cyber Crime Awareness

At the end of the session Mr. Jiten .S. Fatehchandani were proposed the Vote of Thanks.

Report on Guest Lecture

“Preparation of Success “

Date: 10th January, 2020

Time : 10.00 am to 12.30 pm

Venue: Auditorium, Ground floor, College Building.

Introduction: A guest lecture on “Preparation for Success” was held on 10th January 2020. The guest lecture has been organized to provide the students with an opportunity to get guidance for achieving success in their life. The total 200 students have attended Guest Lecture.

Objective:

1. To direct students for success path.
2. To motivate and encourage to the students to draft and achieve goals.

Invitees:

**Speaker: Chief Guest : Mr. Bajerao Patil, Clinical Director, Philadelphia, USA.
HR, Counseling and Author .**

Guest Of Honour : Mr. Madhukar Potdar

Detailed Report:

- A Guest lecture began with welcome address by the Principal Dr.Mrs. Snehal Dhode. She has introduced and welcomed of the Chief Guest Mr. Bajerao Patil and Guest of Honour Mr. Madhukar Potdar. She urged student to gain knowledge from him which will help them to prepare for success in life. She advised students to try taking up opportunities and learn from them.

In This Guest Lecture, Mr. Bajerao Patil said to students "The Sky is Limit" we can do it anything, we can choose our career with our potential. He advised students not to think about anyone except family for taking our decision. He shared his own personal experience about his life Journey of success with students and it is very inspirational. He said to student Hard work is important foundation of successful life without that no one can succeed in life.

He said Determination is very important part of our life. If we can determine exactly what we can do it in our life, then we will be successful in life.

Mr. Patil said that everyone is successful in life because of everyone have their own definition of success but take small steps and go through step, so anyone can achieve success easily. He gave blessings to students.

Mr. Madhukar Potdar shared his life journey of success with students that how it started from small village and successful person in his life, he travelled the world for learning and career purpose. He said to student decide their own goal and decide own way to achieve that goal.

- At the end of lecture Principal gave vote of thanks and the felicitation of Chief Guest and Guest of Honour. Principal offered him Saplings.

State Level Webinar on Introduction to Intellectual
Property Rights in India: Patents, Trademarks and Copyrights

Date: 27.4.2020

Time: 11.30 am to 1.30 pm and 2.30 pm to 4.30 pm.

Venue: Zoom Platform

Introduction: Intellectual property protection is critical for fostering innovation. Without protection of ideas, businesses and individuals would not reap the full benefits of their inventions and would focus less on research and development. The effort was made to educate the faculties and research about the legal aspects of Intellectual Property Rights by organizing webinar. The response of the participants for webinar registration was so overwhelming that the webinar was conducted twice in a day to accommodate all participants.

Participants: Total 130 participants attended the state level webinar from Kalyan, Aurangabad, Mumbai, Navi Mumbai, Mahad, Nasik, Latur, Pune, etc

Speaker:

Dr. Poonam Gawali (Scientist B (Project co-ordinator), Indian Council of Medical Research, NIRRH MRHRU, Parel Mumbai,

Webinar execution:

Welcome of dignitaries and participants by Webinar Convenor

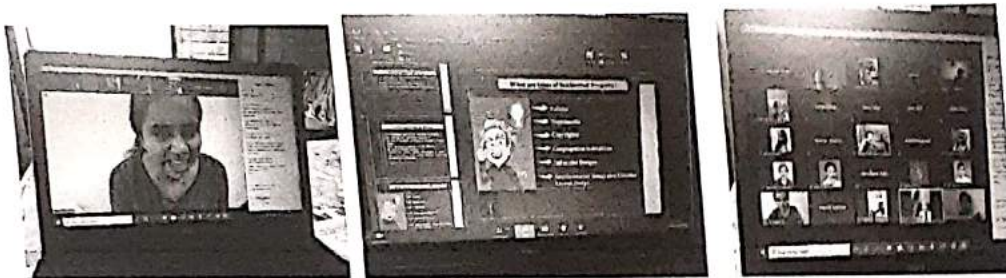

The webinar initiated with introduction of the concept note of workshop by Prin. Dr Snehal Donde, Convenor. She explained the need for Research and innovation among researchers and benefits to be achieved due to IPR. Prin. Dr. Vasant Mali, Co convener, expressed his gratitude towards Dr. Snehal Donde for organizing the webinar. He also explained the importance of webinar and wished for the success of the webinar. Prin. Dr. B.L. Jadhav, co-convenor also shared his views on need for IPR Webinar.

Technical session:

Dr. Poonam Gawali, started the session with the gratitude towards the organizers for organizing the webinar on topic of IPR. During her session she covered the following aspects of IPR :

- a. IPR Act and its sections
- b. Process of application for Patents
- c. Inventions not patentable
- d. Scope of IPR
- e. The Validity of patents

She conducted the session with the help of PPT Presentation and interactive mode.

Workshop Feedback

The Webinar ended with the Vote of thanks by the Dr. Snehal Donde. At the end of the webinar, the google form link of Feedback form was circulated among the participants. Total 122 participants filled the form and provided the data. Following is the analysis of feedback:

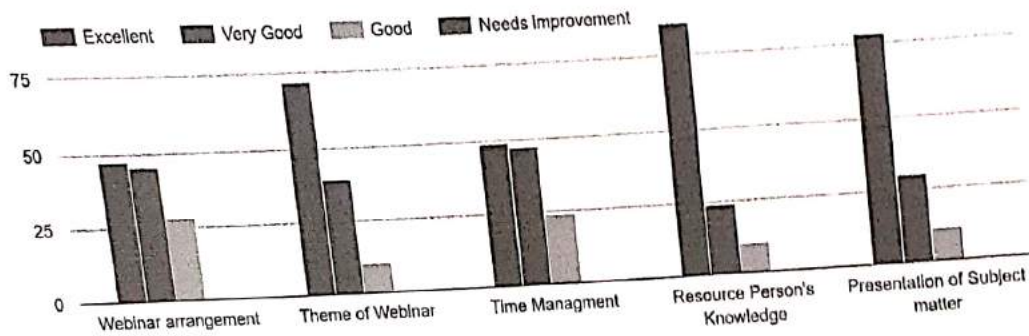

Overall, how would you rate our Webinar

119 responses

Kindly rate for the below mentioned aspects:

Outcome:

The webinar was conducted smoothly. The audio video transmission among speakers and participants was managed well. Over all conduct of webinar was successful.

National Webinar on

“Upskilling Librarians for New Generation Learners “

Date: 29th April, 2020

Time: 11.00 am to 3.00pm

Venue: Zoom Meetings app

Introduction: Amidst Corona (COVID-19) pandemic and nationwide lockdown, webinar was arranged for Upskilling Librarians for New Generation with the various technology orientated aspects of Library.

Participants: Total 96 participants attended the webinar from Thane, Mumbai, Belgam, Shirampur, Jalandhar, Pune, Nasik, etc

Objective:

- Discuss about Innovative Online services for Students & Faculties.
- Discuss about new Generation of Librarians Direct E Resource services for Knowledge base.
- Share of knowledge regarding Cloud services for students' access.

- Discuss the latest trends in library Science

Key note speakers:

1. **Mr. Narayan Barse**, Librarian and Coordinator, Department of Library and Information Science Vidya Prasarak Mandal's, K G Joshi College of Arts and N G Bedekar College of Commerce.
2. **Dr. (Mrs.) Priyamwada Joshi**, Department of Library and Information Science, Vidya Prasarak Mandal's, K G Joshi College of Arts and N G Bedekar College of Commerce.
3. **Mr. Pralhad Jadhav**, Associate Director, Library Management at Khetan & Co.

Programme Schedule

Time (IST)	Particulars
12.00 pm	Welcoming and Inauguration of Zoom Conference by Prin. Dr. Snehal Donde
12.10 pm	Blessing note by Dr. Snehal S. Donde
12.15 pm	Session 1: Dr. (Mrs.) Priyamwada Joshi Topic: Innovative Online services for Students & Faculties
1.10 pm	Session 2: Mr. Narayan Barse Topic: Direct E Resource services for Knowledge base
2.10pm	Session 3: Mr. Pralhad Jadhav Topic: Use of Technology and Cloud services for students access
3..00 pm	Vote of thanks by Sanjay Salwe

Conference Execution:

Welcome of dignitaries and participants by Dr. Snehal S. Donde, Conference Convener

The webinar started with the welcoming all dignitaries & participants by Convener, Dr. Snehal Donde. She presented the Concept Note for explained the importance of librarian in an institution and in today's context how librarian has to support and facilitate the teaching learning by rightly equipping the faculties and students with the facilities required.

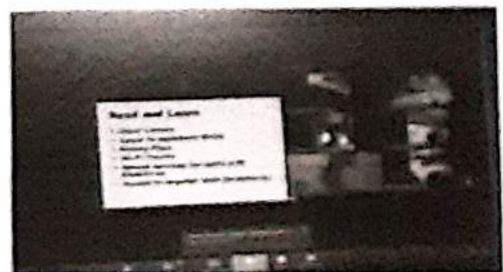

Technical sessions:

1. **Dr. (Mrs.) Priyamwada Joshi**

Topic: Innovative Online services for Students & Faculties

Dr. Joshi presented PPT showing aspects of library with the aim of improving efficiency, effectiveness or competitive advantage, Created in a new partnership, Cyber Library, Space to implement, Wi-Fi facility, Special services for users with disabilities, Provide remote access: Ezproxy, Athense, Remotex, INFED (Shibboleth), Federated Search, Web Scale Discovery Services, Web Scale Discovery Services, RSS Feed, Blog. She also explained on Social networking platforms, Facebook, Instagram, Twitter, Tagging Podcasts/Vodcasts, Wikis, Data and statistical services, E news Paper Clipping,

Use of New delivery format, Institutional Repository, QR Code, Digital Reference Service , E-Contents, Video Lecture Image Services, Mobile Library Centre Idea Box, Cloud Based Printing Solution.

2. Mr. Narayan Barse

Topic: Direct E Resource services for Knowledge base

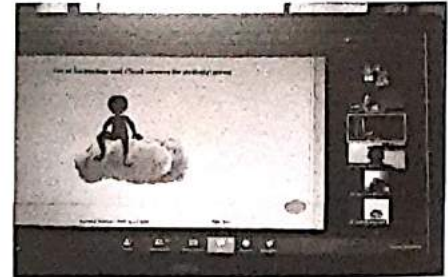

He Discussed about DOAJ , ERIC, OPEN DOAR, Vidanidhi, N.List, Oxford University Press , Indian Journals, IG Library, JSTOR, Sage Books, World ebooks Library, Shodhganga , Shoshindhu online Resources and repository related information.

3: Mr. Pralhad Jadhav

Topic: Use of Technology and Cloud services for student's access

Mr. Pralhad Jadhav speech on the evaluation of man and computer, User technology , commercial software , free software , Proprietary software, Library Management software, Data Management , Data Store Devices , Data Retrieval system, Cloud Server, Cloud computing , Google Drive, Google form, Additional skills, soft skill Tools to collect Manage data , Search Strategy, Desktop Search Tools and online webinar on Zoom, Webex.

Feedback from Participants:

Participants shared their contentment in Zoom Chat box by sending messages. Mrs. Manisha Jadhav thanked the organizers for organizing conference on a very relevant topic as well as selecting right speakers on the occasion. This helped to gain a lot of insight and ideas. Mr. Prakash Jadhav added to organize such webinar during lockdown. So, spare time can be utilized optimally.

The workshop ended with a vote of thanks by Librarian, Mr. Sanjay Salwe, Feedback form link was provided to all participants at the end of the session. The feedback analysis is presented below:

Report on Cyber Crime during corona virus Era: Prevention & Protection

Date: 06th May, 2020

Time: 11.30 am to 2.00 pm

Venue: Zoom APK (online Platform)

Introduction: Today's session were jointly organized by Mansi Bharat Gada Degree College of Commerce, Bhiwandi & Smt. Devikiba Mohansinhji Chauhan College of Commerce and Science, Silvassa. The resource person was Dr. Harold D' Costa. He is President- Cyber Security Corporation and CEO – Intelligent Quotient Security System. He worked on more than 4500 cases of cybercrime from 7 countries and trained more than 35,000 cops and about 4000 judicial officers in various facets of Cyber Forensics, Cyber Law, Digital Evidence and Cybercrime Investigation. He was a resource person in 19 International conferences and also was a part of Global Cyber.

Objectives:

- To create awareness among students regarding increase cases of cybercrime during pandemic
- To inform people about cybercrime threat assessments and awareness-raising methods.
- To encourage spread awareness among general public.
- To start online course of cybercrime securities in colleges.

Name of the Speaker: - Dr. Harold D' Costa

Participants: 100 participants from both the college attended the webinar.

Class		Participants (100)	
	Jiten Patehchandani		
	Pooja Dodhia		
	Dr. sunil khandebharad...

	Admin		

Execution:

The webinar started with welcoming all Participants. Dr. BL Jadhav welcomed to Dr. Harold D' Costa with his profile and felt thankful to our Principal Mrs. Dr. Snehal Donde. Later, Mrs. Dr. Snehal Donde spoke for him that he helped us as friend and applicable in every sector literally.

Speech were conducted by Dr. Harold D' Costa:-

He spoke about past 6 weeks we lockdown but every problem has solution to go ahead and how cyber security is and cybercrime is all about misuse of technology. He explained about financial frauds, fraudsters through WhatsApp and religion community. He explained about how frauds happen through Internet. Our country has internet for 26 years. There are 65 crores Indians hooked by internet and 95 crores Indians hooked by mobile. India has 3rd largest internet users in the world. He informed that no owner of internet and not be stopped. He informed that how much importance is the course of Cybercrime in our country. India will need 5 equipped cyber security professionals by 2022 as per his view. He informed that how to ensure online learning, exams, etc. and last 12 to 13 years he conducted various courses and trained 14 lacs people. It requires various resources for introducing online courses like:- Internet Connections, Contact and Videos on Portal, Assignments Posting Online and Case Study Approach. He also informed in April'20 there were 20 to 22 % cybercrimes in Maharashtra and 78 cases in last 45 days in financial frauds, occasional cases, through WhatsApp, Facebook, etc. Cybercrime is all around all over the globe. He also suggested for our electronic device mode there are many viruses which come through an Internet for removing viruses we need to download any one of Anti-viruses:- (1) Mackapey (2) Nottan (3) Kaspersky. He advised before installing any applications in mobile phones read always terms and conditions.

Finally his speech over and started Question & Answers sessions. He answered questions from participants who had doubts and queries.

Outcome:

The webinar was conducted smoothly. The audio video transmission among speakers and participants was managed. Number of participants could be increased through proper promotional activities. The overall experience of conducting seminar on virtual platform was satisfactory. This has opened the ways for conducting future events on virtual platform very effectively.

Awareness campaign to rejuvenate Howrah, Gomati and other rivers in Tripura region For realizing and maximizing potential

29th May, 2020 **Time: 11.00 am**

Eminent Speakers

Blessing Note & Inaugural Address by
Jalpurush Dr. Rajendra Singh ji

Jalnayak Dr. Mrs. Snehal Donde,
 Convener, Ganga Mission (West Bengal & Tripura)

Dr. Nibedita Das,
 Dept. of Geography, Tripura Central University

Dr. Shrinivas Vadagbalkar,
 Geologist

Shri Bishu Karmakar,
 Member Secretary, T.P.C.B.

Shri Bibhuti Debbarma,
 Co-convener President Youth For Integration

Dr. Snehal S. Donde
 Convener Jalnayak, Member of World Water Council, Vice President, Youth for Integration, Chairperson, SKECT, Principal, MBGDCC

She showed her work of Ganga river and siltation due to construction of barrages, water pollution issue of rivers in Maharashtra. She also mentioned about three water related proposed bills i.e. Inter state river water dispute bill, River basin management bill, Dam Safety and Security bill. Due to this bills the quality of forest cover and catchment areas, conservation and development for the sustainable livelihood thereby ecology and environment, economic upliftment of the local people can be achieved. She further added about Right to Water and why this needs to be adopted by states. If it come in place that really help in conservation, safety and security and sustainable use that means it's really helping to ensure the provision of water for life and different and compliance of the basic right. There are the river flowing in region and then a committee can be set up and with the help of office, plans can be drawn and accordingly there will be a lot of people's participation and water conservation will happen in the area. This will also ensure the climate change mitigation, adaptation and integrated part, all water related issues initiatives will be taken.

At the end of her session, Dr.SnehalDonde, urged to all that we have to focus at solution rather than crying on complaints, a as a young generation has lots of potentials and innovation in mind,

2. **ShriBishuKarmakar, *Pollution Aspects of Rivers in Tripura***

He explained the steps taken by TPCB (Tripura Pollution Control Board) for reviving and rejuvenating the rivers in Tripura. He said that TPCB has received the directives from CPCB for protecting rivers in Tripura. In 2016-17, total six rivers in Tripura were declared as polluted including Howrah and Gomati. Following directives of CPCB, the TPCB has prepared the action plan and formed a committee "River Rejuvenation Committee". The Action plan is prepared by taking the views of all stakeholders and includes components like Treatment of domestic Sewage, Periodic assessment of Water quality, installing of Effluent Treatment plant at the bank of rivers. All the industries located near Howrah and Gomati River was instructed to set up their own STP. The TPCB is checking the BOD level of River water every month and it is within the prescribed standard level. Some NGC and Eco clubs comprising of teachers and students are working for creating awareness among the people to stop the pollution of river by not discharging sewage. He concluded that

SCOs by keeping BOD level within prescribed limit.

3. **Geologist Dr. Shrinivas Vadagbalkar, *Geology of Rivers***

In the beginning of his session, Dr. Vadagbalkar appreciated the organizers for selecting such topic and Dr. Rajendra Singh Ji for being Chief Guest. As a geologist, he mainly focused on the geology of Tripura region and flow of rivers. He explained the geological structure of Central northern area which is part and parcel of Himalayan Range, Southern part which is open and marshy. West Tripura is open and plain land and having silting issues in rivers. Tripura records highest rainfall of 2000mm in any year therefore ground water level is very high.

He added that as everything is essentially connected with earth and materials of earth, the things are in the hands of nature. The factors which control ground water and surface water are geology, lithology, recharge condition, morphology, rock formation etc. He presented the map of Tripura state and explained the water table and morphology.

4. **Dr. Nibedita Das, *Research study on Haora & Gomati Rivers in Tripura***

During her Technical session, Dr. Nibedita Das explained her research work done on Howrah and Gomati River. She explained her observation through map of Tripura region in 1981 and 2015 and explained the changes occurred during this period on level of vegetation, population and increasing level of river bed which ultimately caused sedimentation and silting. Due to sedimentation, the water holding capacity of river is decreased and soil erosion took place up-to 60000 cubic meters. In Gomati River, due to Maharaja barrage, sedimentation is happening in lower part and as a result of this vegetation cover is decreased. Deposition is obstructing the channel.

Workshop Feedback

Dr. Chandrika Dean, Dept of Arts and Commerce, Tripura Central Uni. shared her heartfelt thanks for organizing such workshop and putting light on the river related issue. One of the participants Mr. Suman has also appreciated for wonderful session and there is something in

Conference execution:

Welcome of dignitaries and participants by Conference Convenor

The conference initiated with introduction of the concept note of workshop by Dr SnehalDonde, Convenor, and respectful obeisance to her Guru Jalpurush Dr Rajendra Singh ji. She expressed her gratitude to Dr RajendraSinghji as he accepted the invitation to give inaugural address and blessing note.

Inaugural address by Dr.Rajendra Singh ji, Waterman of India

Dr.Rajendrasinghji first performed lighting of lamp as customary at his place. In his Inaugural Speech, Dr.Rajendra Singh ji mentioned that Tripura is the state with abundance of Mountains and rivers but unfortunately the rivers are not taken care of. When he visited Hawrah and other rivers in Tripura, he observed that river's condition is worse and government's approach to build a dam over it. He said that Government has to study the rivers and ecological structure before planning to construct a dam over river. As the corona virus has shaken our life, we should adopt policies for common future. As the river is living being, it has to be respected and on humanitarian ground it should be protected. He appreciated Dr.SnehalDonde and ShriBibhuti (YFI) for working towards the river protection work in Tripura.

Technical sessions:

1. JalnayakDr.SnehalDonde, Right to Water Act & Serious Siltation issues of Rivers in Tripura

During her Technical Session, JalnayakDr.SnehalDonde said that, as today all western countries have started decommissioning dams because lots of hectares of land is submerged and bio diversity affected. Instead of dams check dams can be constructed. She is thankful to Tripura govt. that 3000 check-dams are planned to be constructed in Tripura as mentioned in DPR.

Introduction:

Participants: 51 participants attended the National level zoom workshop from Tripura, UP, Maharashtra, Assam, Tamilnadu, West Bengal, etc

Chief Guest:

Jalpurush Dr. Rajendra Singh, Magsaysay Awardee, Stockholm Water Prize Awardee & Founder of NGO 'Tarun Bharat Sangh'

Resource Persons:

1. Jalnaya Dr. Mrs. Snehal Donde, Convener, Ganga Mission (West Bengal & Tripura)
2. Shri Bishu Karmakar, Member Secretary, Tripura Pollution Control Board
3. Dr. Shriniwas Vadagbalkar, Geologist
4. Dr. Nibedita Das, Dept. of Geography, Tripura Central University

Programme Schedule

water pollution due to improper handling of BMW. He quoted the recent research done on danger marine life due to disposal of waste in water. The Mask, Glasses, Gloves, etc are thrown in ocean causing water pollution. He urged the other dignitaries to arrive at proper solution of BMW.

Technical sessions:

1. Dr. Manjusha Dharna, Ph.D. on *Bio Medical Waste*
Dr. Manjushan Dharna presented her research study on An analysis of Bio Medical Waste Handling practised by Hospitals in city & Rural Area. During her presentation she explained the types of infections which can spread through ineffective handling of Bio Medical Waste. She also explained the environmental impact of Bio Medical Waste. As her research study was on BMW handling by hospitals, she showed that statistics of the data collected relating to collection, segregation and storage of BMW in city and rural area.
2. Dr. Chhaya Joshi (*Gynecologist, Joshi Hospital, Rajapur*)
Dr. Chhaya Joshi shared her experience of running hospital in Rajapur. She said that how the people of nearby villages approached the hospital for treatment though ST bus, inadequate facility of other transportation, improper facility of Bio medical Waste generated, lack of awareness, etc.
3. Dr. Sachin Mumbre (*Dean, Faculty of Medicine, MUHS, Nashik*)
During Technical session, Dr. Sachin Mumbre emphasized on the bar-coding of Bio medical waste at the occupiers' site that is site where the bio medical waste is generated. He added that if bar codes are not used what were the results, for that when the Bio medical waste is reached at its terminal place that is final destination, whether the incinerator is used properly. Actually the technical specifications of incinerators are not met with norms so it is not possible to check that but it is ultimately the responsibility of the MPCB. So, the responsibility of each stakeholder is clearly defined in their zones. The occupier means the hospitals where the Bio medical Waste is generated has the responsibility of properly collecting it, segregating it in bins as per color coding as defined and handing over to the person who is transporting it. If bar coding system is available use of that is expected. So, there are specific areas of problem and it needs to find out why problems are there and which kind of problem exists like problem of lack of knowledge, indifferent attitude, perception problem or some other problem. The situation is becoming worse in post COVID 19 pandemic so it is the time to pinpoint each problem and together find the solution. He suggested

Workshop execution:

Welcome of dignitaries and participants by Conference Convenor

The workshop initiated with the welcoming and introduction Convenor, and respectful obeisance to her Guru Jalpurush Dr Rajendra Singh ji. She expressed her gratitude to Dr Rajendra Singhji as he accepted the invitation to give blessing note. She also introduced the Chief Guest **Dr. Prashant B. Narnaware** and other resource persons on behalf of the all organizers.

Dr. Snehal Donde said that due to COVID 19 pandemic situation, the treatment of Bio medical waste has raised concern and involvement of any government officer is hardly found so the workshop is an attempt to bring together all stakeholders together and find out possible solution.

Inaugural address by Dr. Rajendra Singh ji, Waterman of India

As Dr. Rajendra Singhji is waterman of India, He co related Bio medical waste generation and Water pollution during his inaugural address. He said that due to COVID 19 pandemic, the situation of BMW generation is aggrieved causing

possible solutions like training of staff handling Bio medical waste, strict action by concerned authorities, etc.

4. Dr. Hemangi Walke (*Asst. Professor, Microbiology, Kolhapur Govt. Hospital*)
Dr. Hemangi Walke presented her views on "Bio Medical before and after COVID 19" through PPT. In her ppt. She explained the role of Class IV workers in BMW handling. She also focused on problems of BMW in India and BMW management Rules, 2016 amended in 2018 & 2019. She further explained the types of waste, various coloured containers used for segregating waste, Types of PPE and effective ways of disposal of PPE.

5. Dr. Sunil Fugare (*Deputy Registrar, MUHS, Nasik*)

Dr. Sunil Fugare, during his session provided following suggestions.

1. Awareness
2. Strict adherence to advisory mandates given by laws, rules, guidelines etc
3. Hospitals to segregate BMW materials strictly as per norms and to transport & dispose off this scientifically
4. Due to COVID 19 BWM has been increased tremendously that should be disclosed off as per guidelines and it should be strictly observed by Municipal corporations or local authorities.
5. To create awareness and for sensitisation of its harmful effect it should be incorporated in the syllabus not only at College level but from School level. It can be accommodated in subject environment.
6. Nursing, paramedical curriculum should have separate chapter on BMW management

Key note address by Chief Guest

Dr. Prashant Narnaware in his key note address mainly emphasized on the role of Municipal Authority in BMW management. He said BMW comprises 1% of total waste generation and during this COVID pandemic it is increasing at rapid speed. He also focused on vulnerability of sanitary staff during BMW handling process as the number of infections are increasing among these people. He quoted the example of Sion, BKC area situation and number of controls imposed for BMW handling

3. Shri Ramakant Babu (Jalnayak)

Programme Schedule

Time	Particulars
3.00 pm	Welcoming & Introduction of workshop by Jalnayak Dr. Snehal Donde
3.10 pm	Inaugural Address by Jalpurush Dr. Rajendra Singh ji
3.30 pm	Blessing note by Shri Gauranga prabhuji (WTO awardee for sustainable Rural Development Project)
3.45 pm	Technical Sessions 1. Dr. Sumant Pandey (Director, Water Literacy Program, YASHADA)
4.10 pm	2. Dr. Snehal Donde (Jalnayak)
4.30 pm	3. Shri Ramakant Babu (Jalnayak)
4.50 pm	Feedback from participants
5.00 pm	Vote of Thanks

Workshop execution:

Welcome of dignitaries and participants by Conference Convenor

Jalnayak Dr. Snehal Donde welcomed all participants and Resource Persons. She started conversation with participants by knowing their names and designation of work they do. Dr. Sumant Pande joined in the introduction part and had conversation with participants regarding water work they do and area they belong to.

Inaugural address by Dr. Rajendra Singh ji, Waterman of India

Dr. Rajendra singhji. congratulated Dr. Snehal Donde for organizing workshop for govt. officers. He said that as water is life and scarce, it should be protected and prevented from misuse. He expressed his best wishes for the success of Workshop

Technical sessions:

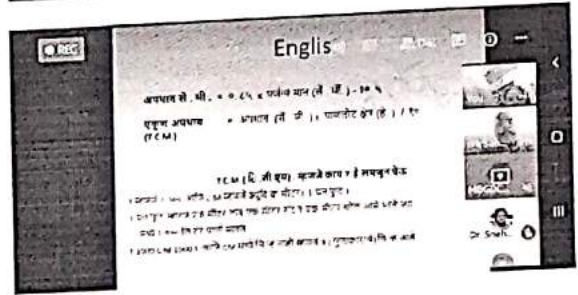

1. Dr. Sumant Pandey (Director, Water Literacy Program, YASHDA)

Dr. Sumant Pande, during his session explained the causes of water scarcity in Maharashtra, and how water conservation projects are kept on hold. He urged all Govt. Officials, Gram Sevaks, etc to provide accurate data related to water, its sources and uses so as to frame proper report and statistics for policy decisions,

2. Shri Ramakant Bapu (Jalnayak)

Shri Ramakant Bapu explained the steps of water audit in detail. He showed the points to be taken care and type of data to be used for conducting water audit. He presented all calculations through PPT presentation. He explained how data can be collected on various aspects of water audit and distributed into two types of crop pattern.

Workshop Feedback

Participants expressed gratitude towards resource persons for sharing their knowledge.

The workshop ended with the Vote of thanks by the convener of workshop Dr. Snehal Donde]

Outcome:

The workshop was conducted smoothly. The audio video transmission among speakers and participants was managed well.

Participants' strength was less which was challenge. Or else the workshop was fruitful as both the technical sessions were executed properly. The resource persons' knowledge was excellent and shared with high level of zeal and enthusiasm.

3. **TuhinSubhraMondal, (River Activist)**
4. **SupratimKarmakar, (River Specialist)**
5. **AnupHalder (River Specialist)**

Workshop execution:

Welcome of dignitaries and participants by Conference Convener

Dr.SnehalDonde welcomed all participants from West Bengal state. She explained the aim of conducting this workshop exclusive for West Bengal State because level of erosion is high in this state which adversely affected the flow of river and water bed level.She also opened the forum for discussing the points of EIA policy draft in Panel discussion and to strategize the directions for correction in policy draft. After Welcome she invited Mr.JayantaBasu to share his work for Aadi Ganga. Mr.JayantaBasu shared his experience of study conducted by him on flow of river (Channel) Aadi Ganga and hijacking of channel by humans for their infrastructure development.

After Welcoming, Three videos are played showing the current situation to Ganga river and how land slides are fallen into river. Pla cards were also shown by ShrisubrotoBishwas supporting Swami shivananda fasting for saving Ganga river.

Inaugural address by Dr.Rajendra Singh ji, Waterman of India

In inaugural Address, Dr.Rajendrasdinghji said that EIA policy is basically economic policy, it is prepared without considering our common future. It will ruin the environment and Ganga river. With special reference to Ganga River, he said that solution of Ganga erosion will be derived jointly by Raj and Samaj (Governemnt and People). We cannot blame only Government for eroding Ganga river. We together have to work towards Ganga Rejuvenation. He appreciated the work of Dr.SnehalDonde for creating awareness through this webinar.

Technical sessions:

1.Tapas Das (River Activist, West Bengal)

Mr. Tapas Das, shared his work for Ganga river. He explained that Existing government policies are not enough to save river but there is need for massive action to be taken for it.

2. SupratimKarmakar, (River Specialist)

Mr. SupratimKarmakar, explain the impact of farakka barrage on Ganga river flow. He also shared points of EIA policy draft and how it is going to be affect adversely.

3. **TuhinSubhraMondal, (River Activist)**

Mr. TuhilSubhraMondal covered the topic of soil binding, pollution mitigation and soil erosion near Ganga river. He added that government should be pro active for taking decision regarding holy ganga river. In COVID19 situation, the river pollution is decreased significantly but this is temporary phenomena.

4. **AnupHalder (River Specialist)**

Mr. AnupHalder mainly focused on big hydro projects which are in progress on Ganga river. How big dam and hydro projects will affect the natural flow of River. He added that there is no provision for getting rid of these projects in EIA policy draft.

Panel discussion:

Panel discussion was conducted to draw plan of action for saving Ganga river from Erosion and save from adverse impact of EIA policy draft. The panelists discussed various measures to be adopted for the same including mass awareness campaign, reducing plastic waste. Dr. SnehalDonde suggested to keep documentation for every activity and published from time to time which can be also helpful for applying under RTI ACT for getting vital information.

Workshop Feedback& Outcome

The workshop was conducted smoothly. The audio video transmission among speakers and participants was managed well. The workshop was fruitful as both the technical sessions were executed properly. The speakers knowledge was shared with high level of zeal and enthusiasm.'

The workshop ended with the Vote of thanks by the co-ordinator of workshop Mr.SubrotoBishwas.

Report of Staff meeting on research work

Name of the Activity: Staff meeting on research work

Date: 20/11/2020

Time: 12.10pm to 1.10pm

Venue: Google Meet

Objective of Activity:

1. To discuss about research work,
2. To encourage faculties for pursuing research work

Execution:

The Meeting started with the orientation by Principal. She explained the importance of research in general and asked faculties about their interpretation of research.

The Faculties shared their views on research. Then she started with the detailed presentation of ppt slides. She thoroughly explained the meaning of research with example and share her experience of doing research on various topics.

In her slide she covered detailed explanation of Literature review, Method of data collection, importance of data and data analysis, and report format.

At the end of the session, she explained how a research paper publication can put the weightage on resume and further progression and promotion.

The faculties felt very much motivated and they ensured that they will begin the research work with their interest area.

Date: 31/12/2020

Time: 10.30 pm to 12.30 pm

Venue: Google Meet

Objective of Activity:

1. To orient students for Research
2. To share various aspects of Research

Execution:

Principal Dr. Snehal Donde has conducted Research methodology sessions.

She oriented students and staff about various aspects of research and distributed research survey topics to students by making a group of three.

The topic was given as Plastic pollution in various sectors of Bhiwandi city.

She further presented slides on detailed explanation of objectives of research, literature review, data collection and analysis.

Principal asked them to prepare and present the compiled data collection and analysis presentation in ppt format. The presentations were also considered for evaluating for internal examination.

A UNITED AMERICAN-BHARATIAN WOMEN FOR SUSTAINABLE INNOVATION

Galaxy of Experts debating on need for combined efforts to tackle issues of climate change

In Pic - his holiness Radhanath Swami Maharaj addressing the heterogeneous group of environmentalist explaining the importance of water in 21st Century in relation to climate change.

Introduction to the report:

The summit started by Welcome note from Shri. Radha Swamiji Maharaj to all the Galaxies to come on one platform. Than further Mr. Yachneet pushkarna introduce the dignities and Mrs. Paramita Sen. and Dr. Neil Philip explaining about their work and exposure of students in Govardhan eco village. A team of students in collaboration Mr. Greg Bruce – head of sustainability development of Townsville from Australia set up a weather station in GEV. Through which a lot of information can be get available about weather. The students from 4 different campuses of CUNY carried backpack weather station and wherever they go, were getting and collecting data about aerosol, dust reports and through this report it was possible to know which area has more of Arizona, this micro level data has become very crucial data and the UN and other organizations insisted that this research work should not only be restricted to scientist only. Rather it should be a participatory research for students, universities and also corporates should take part in such study and find out the reason why there are so drastic changes in the climatic conditions. The report of same was also shown to the Education Minister. It was possible only with the help of Mr. Yachneet pushkarna. They encouraged going ahead with this research studies.

Dr. Neil Philip with their students visiting various places in India and collecting weather report.

Weather station set up by Dr. Neil Philip and his team at Govardhan eco village

Meeting with Education minister Mr. Yachneet pushkarna, Mrs. Paramita Sen, Dr. Neil Philip.

Mrs. Paramita Sen

Dr. Neil Philip

Words from the desk of speakers

1. **Mr. Randhir Jaiswal, Indian Consul General, New York** –Sustainability in my understanding and larger understanding today and which is very encouraging is that it lies at the heart of development agenda without sustainability we cannot make progress on sustainable development goal.
2. **Mr. David J. Ranz, U.S. Consul General, Mumbai** – Climate change is a global phenomenon but it is experienced locally. The consequences of climate change affect millions of people every day. President Biden has made fighting climate change a top priority for the United States and the US is part of our pledge to address the challenge has rejoined the global community in the Paris agreement.
3. **Mr. Ajay Piramal, Chairman, Piramal Group** – Our foundation works in 112 aspiration districts which have been identified by the honorable Prime Minister as those which need the most attention. We are working together now In the areas of health nutrition and education in which aspirational districts are far behind. If you look at the quality of the water and availability of the clean drinking water is coming down and there again we have been closely working to ensure that piped water is available and is monitored by all of us
4. **Shri Bhagat Singh Koshiyari, The Governor of Maharashtra** – We must give first of all sanctity to our nature. Once we think that nature is very pious. Just as a child doesn't exploit his mother and even the mother doesn't allow her to exploit similarly we have to take that this as a whole world and if such spirituality is given to this earth to this water and with the blessings of Radha Swamiji who is dedicated to this cause I think conference will be very successful.

5. **Dr. Thomas Isekenegebe, President, Bronx Community College/CUNY, N.Y** – At Bronx community college we believe that these people to people contact that only do make the difference. With the leadership of Philips and parameters in from our campus to arrange for people to people contact and we send students from different colleges of the world to India and actually see what the situations is of climate change and to come up with solutions. And im pledging the support of Bronx community college and our faculty to continue this work, continue collaborating and partnership with everybody.

6. **Dr. Tony Munroe, President, Borough of Manhattan Community College/CUNY, N.Y** – The CUNY – India study abroad program is one excellent example of a strong sustainable collaborative that is providing unique experiential learning opportunities for our students as we need to support expand and build this tremendous work that's being done.

7. **Mr. Ashish Chauhan, MD & CEO, Bombay Stock Exchange** – BSE is always there in to support the country and the world in raising funds for the projects important to the society. I reiterate BSE commitment to help raise sustainable finance and would love to engage more with everyone in exploring ways to take India further on path of sustainability

8. **Provost Lester Rapalo, BCC/ CUNY/ N.Y-** It is a wakeup call and it is our responsibility to protect our planet help each other and care for each other. Water scarcity could display more than 700 people by 2030. So I welcome all your respective goals and all your respective roles that try for more sustainable clean water planet and show us the importance of helping each other and this planet that we call world and home for all of us.

9. **Prof Haberman, Prof, Department of Religious Studies, Indiana University-** I approach issues of sustainability as a professor of religious studies who identifies with the subfield of religion and ecology much of the initial inspiration of the subfield began with the publication of seminal 1967. Solving the environmental crisis necessarily involves religion. The GEV is deeply engaged in the fruitful union of sustainable technologies and religious vision and is a current model for the world to live from

10. **MC. Binz Scharf** – mentoring students entrepreneurship teams is to show students that everyone can be a change maker and all you need is a belief social justice and passion. There are 2 strategies for that one is have them start in their own communities and ask what is the stuff that makes your blood boil that you wish could be changed. The other one is to find to show them existing successful initiatives and to show them what can be done with modest resources by small groups of dedicated individuals.

11. **Ms Chantal Elkin, Head of Beliefs & Values Programme, WWF** – We have been really focusing on the issue of greening religious pilgrimage. We also been working with forest department of India with religious organizations with pilgrims. And also wanted to call attention to faith based tree growing efforts which all over the world are just enormous and of course in india million and millions of tree being planted, which really present an amazing opportunity to collaborate with the conservation world. We can help scientific best practices choosing appropriate tree species and successful ways of growing the trees for long term.

12. **Mr. Gopal Patel Co Chair UN Multi Faith Based** – Three key moments. 1. Faith perspective, 2. Youth Perspective and 3. Academic Perspective. We encourage you all to take those seriously if you are interested in working faith based community in these key moments.

13. **Dr Snehal S. Donde Principal SHVOCC, Mumbai University & Dean Administrative (Govardhan Eco Village)** – We believe on the concept of Shri Mahatma Gandhi 'Be the change you want to see' and thus trying to teach youth for the climate change we are working how to mobilize our youth for this purpose and that is our contribution in terms of climate change and for that we are taking up as Jal, Jungle and Jameen integration of three that we are trying to work in GEV and taking up all the blessings of Maharaj and Gaurang Prabhuji under their auspicious guidance that we are doing.

Finally a vote of thanks was ended by Dr. Snehal Donde & Mr. Gaurang Prabhuji to Mr. Yachneet pushkarna and all others to bring all the galaxians on one platform.

In association with SKECT – WOMEN WATER WARRIORS

WORLD WATER DAY - Save Water Save Life.

Name of event : Celebrating World Water Day.
Date : 22nd March, 2021.
Time : 10.30 a.m. onwards.
Venue : Ulhas river, Kongoan, Bhiwandi.

Objectives:

1. To educate and aware the NSS volunteers for valuing the water.
2. To encourage the leadership skills building for water lovers.
3. To get feedback of students on current situations of water bodies.

Preparation:

On this auspicious day by valuing the water our college NSS unit – 18 volunteers had a survey, gather information and some knowledge about the water from the “Jalyanak – Dr. Snehal S. Donde” Principal of this college. She is also a Chariman of ‘SKECT – Shri Krishna Education & Cultural Trust’. Under their guidance and leadership we had a small rally for water considering the current covid’ 19 pandemic situation. We celebrated this day in two different session.

1. Jal Dindi of Ulhas river at Kongoan, near Bhiwandi. Dist. Thane.

Total people present:

Chief Guest :- Mr. Jeevan Vichare (NSS Thane District Co-ordinator)

Resource Person :- Dr. Snehal S. Donde (Jalnayak)

NSS Program Officer :- 3

NSS Volunteers :- 31.

Brief Report -

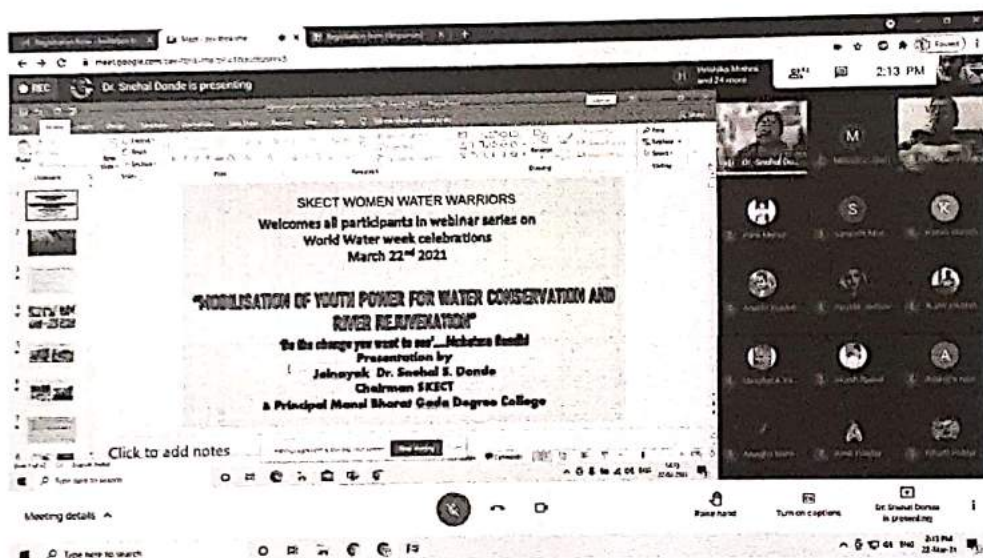

A Webinar on Water Literacy & Forest Literacy at NSS Thane District Level was organized in support and co-ordination of Mr. Jeevan Vichare (NSS Thane District Co-ordinator). Our Principal madam, Jalnayak Dr. Snehal S. Donde had a very informative session where she encouraged for leadership skill building among the students, NSS program officers and volunteers.

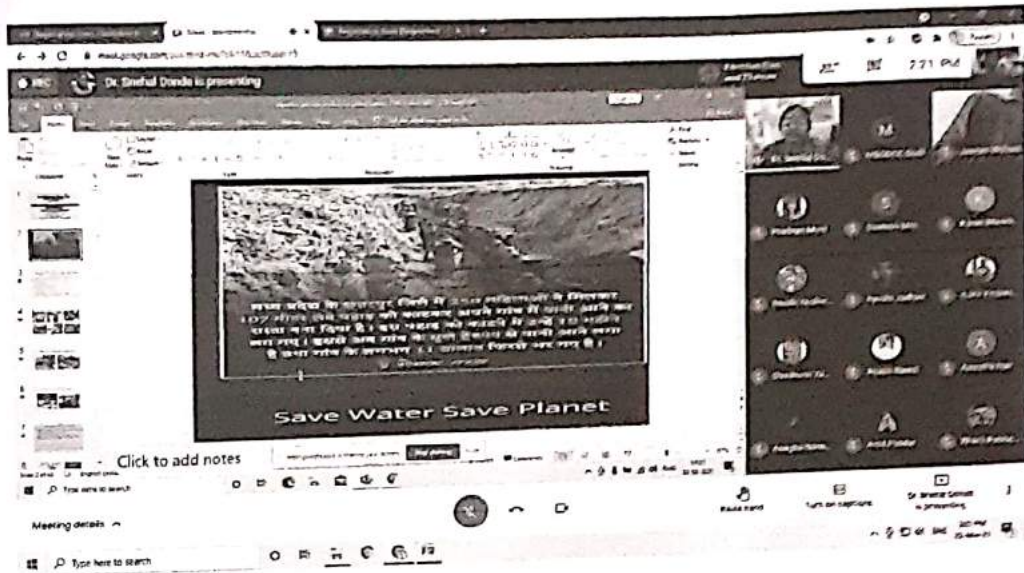

1. Session started with welcoming NSS Thane District coordinator head, Mr. Jeevan Vichare. Giving importance to the title of the webinar he said that 'Pani he to jeevan he'. He also

dictated that how much water is important in everyone's life. He insisted on celebrating World Water Day at the district level from next year.

2. Jalnayak insisted on the points in the webinar, the highlights of its are as follows:
 - Understand the difference of mineral water that were obtained from taps in earlier time and now available in the form of R.O. and mineral water bottles.
 - Today there is corporisation of water being taking place in the world.
 - Global scarcity of water is rising.
 - Ground water is declared overdraft.
 - Almost 350 districts in India are facing drought conditions.
 - Only 1% Portable water left on the Earth Planet.
 - Only 8% Rain water is harvesting in practice in India.
 - Intergrated role of Jal (water), Jangal (Forest) & Jameen (Land)
3. Further communicating the youngsters she said "We can survive from covid, but we cannot live without water". Showing some reality ground pictures in this presentation as how the water bodies are being badly polluted by human encroachments and their practices.
4. Jalnayak urge all the presenters to make the practice of preaching water (Valuing the water) which should be part of our habit and should be in daily practices. In addition to this she said. Now there is necessity for "Mobilisation of Youth power for water reservation and rejuvenation."
5. Given an inspirational example of Women empowerment in Chhatarpur (M.P.) where 250 womens putting efforts in making a way out for water restoration and has make their land drought free from numbers of years.
6. Finally she requested that all NSS volunteers, Units, students from different different colleges should come ahead with true emotions, feelings, and courage to take initiative for saving the Jal, Jungle and Jameen.
7. Finally vote of thanks was provided to all the attendees for attending the session by the Jalnayak. A warm and heartfull thanks was provided to the District coordinator for giving an opportunity to present the today's water and nature reality infront of all the community workers.

Some glimpses of the webinar.

Report of "START UP INDIA"

Name of the Activity: "START UP INDIA"

Date: 05/02/2022

Time: 10.30 am to 12.30 pm

Venue: Auditorium, Ground Floor

Introduction; As the start up culture is nourishing in Indian now a days , students must be encouraged to take right steps for successful entrepreneurship. To fulfill this requirement, the college had arranged one day workshop on Start up India on 5th Feb, 2022.

Speaker: Mr. Jignesh Dave , Motivational speaker

Execution: The session started with the blessings of Goddess Saraswati with Deep Prajavalan. The Principal then introduced speaker and welcomed him with Shawl & Shrifal.

Before starting the session Mr. Jignesh Dave inquired about awareness among students about Shark tank India. By taking that example he explained that how an Innovative Idea can be rightly converted into start up with right direction of guidance. He explained the case studies of Ola Uber, Swiggy, etc... At the end of the session, he resolved students queries in Interactive round.

The session ended with the vote of thanks.

Detailed Report:-

1. On 26th February 2022, Saturday, a one day workshop on "Intellectual Property Rights" was organised by IQAC for the students and the faculties.

2. Bindi J Gada is the resource person and Mr. Dhiren Malde is the guest of honour for the workshop

Workshop began with the welcoming all and followed by Deep Prajwalan & Saraswati Vandana.

Prin. Mr. Mitesh Gosrani in his welcome note introduced resource persons and shared their achievements in brief.

Mr. Dhiren Malde who is founder of Social app, Community Tree, shared few motivational words and some of his great experiences in life. He spoke beautiful lines like "Think from your

mind but work from your heart” & “Don’t purchase brand, you be a brand”. He also said to do some extra in every work and with dedication.

The workshop further proceeded with the lecture by Ms. Bindi Gada. She as a resource person provided excellent knowledge regarding the IPR. She introduced key concepts in IPR defining each and every term. Even basic terms of the topic were also covered during this session. She used best current examples for understanding the concepts. Students also showed keen interest in the workshop and gained hands-on experience in the topics of IPR. She also resolved the queries raised by the students during the session.

Overall 150 students and 12 Faculty members participated from different departments. This workshop was a good learning experience for the participants. They also had the great opportunity to familiarize themselves with the new topic i.e IPR and also got the good opportunity to interact with one after best resource person.

Finally , our principal expressed his gratitude for both the resource person and the guest of honor for their valuable time and felicitated them with the Shawl and shrifal as token of appreciation.

The programme ended cordially with the vote of thanks by Ms. Chetna Janyani.
